(WASSCE)

## Work Experience

### National Service Personal

**Association Of African Universities**

**Oct, 2023 - Present**

Currently serving with the Association of African Universities, working alongside two seasoned software developers. In this role, I facilitate and enhance workflow efficiency for the team, offering my support and expertise whenever required. Key responsibilities include:

- Providing technical support and assistance to the software development team.
- Collaborating with colleagues to identify areas for improvement and implementing solutions
- Contributing to the development and enhancement of software projects.
- Assisting in testing and troubleshooting software applications to ensure quality and functionality.
- Continuously updating skills and knowledge to stay abreast of industry trends and technologies.

### Internship Experience

**Emezak Software Company Limited, Dansoman/Ghana,**

**Sept, 2022 - 2023**

My internship experience provided an invaluable opportunity to further develop my skills in full-stack web development while also assuming the role of mentor to interns and colleagues. Key responsibilities and achievements include:

- Worked on projects such as the Eyes In Dubai Project—a comprehensive traveling agent web application developed using PHP/Laravel.
- Responsible for developing a school management system called Academy—a centralized system that brings together students, teachers and users.
- Took on the responsibility of training and mentoring interns and team members, imparting

knowledge and providing guidance to support their professional growth and development.

- Designed and optimized web applications using a variety of technologies including HTML, CSS, JavaScript, and WordPress, focusing on delivering intuitive user experiences and efficient functionality.
- Implemented SEO strategies for projects, leveraging tools such as Google Console to enhance visibility and search engine ranking.
- Successfully integrated external functionalities into web applications through practical experience working with APIs.
- Managed the testing and deployment processes for web applications, ensuring smooth transitions from development to production environments.
- Leveraged a range of tools and technologies including Laravel, Alpine.js, Livewire, and PHP to develop dynamic and responsive full-stack web applications.

## **Personal Projects**

As an individual who takes pride in continuous improvement, hardwork, and embraces challenges, I have undertaken a variety of personal projects that have served as opportunity for skill development, self improvement and experimentation. Some of these projects include:

### **Personal Blog Development.**

- Developed a personal blog utilizing PHP/Laravel, Alpine.js, and Livewire, focusing on creating a dynamic and engaging platform for sharing thoughts and experiences.

### **Pexels Clone**

- Created a Pexels clone application by integrating the Pexels API, demonstrating proficiency in API integration and building a user-friendly image repository

### **WordPress Applications**

- Developed WordPress applications that uses features such as whatsapp direct bot, SEO, widgets and custom logins.

## Deployment Expertise

- Demonstrated proficiency in setting up and deploying web applications using platforms such as Netlify, Vercel, Heroku, Cpanel and GitHub Pages, ensuring seamless accessibility and performance.

## PalmPay Field Agent

As a PalmPay field agent, my role entailed actively seeking out clients and potential users for the PalmPay mobile application. This innovative platform serves as a centralized solution for managing various utilities, facilitating mobile data purchases through mobile money or bank transactions, and providing secure money storage services.

## Teacher

I served as a dedicated teacher, responsible for the overall well-being and education of my classroom. My role involved imparting valuable knowledge to students and ensuring that each day concluded with measurable learning outcomes. My commitment was to instill a passion for learning and to foster a supportive environment where students could thrive academically and personally..

## Leadership Skills

- Ghanata Senior Secondary School Cadet Quarter Master – 2years
- Project Head under developing a system for the University Of Professional Studies, Accra

## Skills

## Software Development

Proficient in HTML5, CSS3, client-side and server-side JavaScript, Nodejs, PHP, SQL, MongoDB, MariaDB and frameworks such as Laravel, Alpine.js, and Vue.js

### **Frameworks**

Experienced in utilizing Laravel, Vue.js, Alpine.js, Livewire, and Tailwind CSS / Bootstrap CSS to develop robust and efficient web applications and systems.

### **Software Proficiency**

Skilled in Microsoft Excel, Word, Access, Draw.io, Mermaid, and Yern for effective data analysis, documentation, and visual representation.

### **Use of API & Search Engine Optimization (SEO)**

Experience in developing applications applications that needs the power of API's such as the Unsplash API, Paystack API,, Pexels API and experimented on building a personal API and web crawler

### **Other skills**

- Strong team player with a collaborative mindset.
- Thrives on challenges and consistently delivers under pressure.
- Demonstrates dedication and a proactive approach to learning and personal growth
- A high ready mindset to jump on alien applications
